UNCLASSIFIED CLASSIF: NONE (XX) RELEASE:

THIS ARTICLE WAS PUBLISHED IN THE DECEMBER 3, 1990 ISSUE TEXT: ABSTRACT. OF THE DAILY SNAP.

LETTER ADDRESSED TO THE AMERICAN NEWSPAPER WASHINGTON POST AND A SOVIET SPECIALISTS ARE PUBLISHED. THE COLLECTION OF ARTICLES BY MATERIALS DISCUSS SOVIET AND FOREIGN STUDIES OF THESE AUTHORS OF MODIFICATION BEHAVIOR PARANORMAL PHENOMENA, OF TECHNIQUES, AND THE POSSIBILITY OF MISUSING RESULTS OF SUCH RESEARCH. MATERIALS CONSIST OF AN EXCERPT FROM HUMAN PSYCHIC RESERVES (REZERVY CHELOVECHESKOY PSIKHIKI), A WORK BY L. GRIMAK WHICH WAS BY THE POLITIZDAT PUBLISHING HOUSE IN 1989; AN INTERVIEW PUBLISHED SKLYARENKO BY CANDIDATE OF TECHNICAL SCIENCES GIVEN TO O. AND SHORTER ARTICLES BY DOCTOR OF ECONOMIC SCIENCIS " OKHATRIN: NATIONAL ECONOMY IMENI ISKAKOV OF THE MOSCOW INSTITUTE OF THE PLEKHANOV, AND V. LEBEDEV, A DOCTOR OF PSYCHOLOGICAL SCIENCES AND CANDIDATE OF MEDICAL SCIENCES. THE EXCERPT FROM GRIMAK'S WORK DEALS ETHICS OF CONTROLLING HUMAN BEHAVIOR OR EXTRACTING THROUGH HYPNOSIS. THE UNITED SATES AND INFORMATION FROM PEOPLE OTHER COUNTRIES ARE ACCUSED OF USING SUCH METHODS IN MILITARY INTELLIGENCE, FOR EXAMPLE. LEBEDEV, WHO MENTIONS THAT HE HAS SERVED AS A PSYCHONEUROLOGIST AND PSYCHOLOGIST IN THE SOVIET ARMY FOR MORE 20 YEARS, DISCUSSES THE POSSIBILITY OF INFLUENCING PEOPLE'S THAN MEANS SUBLIMINAL SUGGESTION AND **PSYCHOELECTRONIC** BY BEHAVIOR TELEVISION, FOR EXAMPLE. HE SAYS THAT HE KNOWS OF NO HYPNOSIS IN THIS DIRECTION WHICH WAS PURSUED IN THE ARMY DURING HIS RESEARCH LEBEDEV ESTIMATES THAT THE PROPORTION OF HIGHLY CAREER. MILITARY PERSONS IN CERTAIN SECTORS OF THE SOVIET POPULATION HAS SUGGESTIBLE INCREASED FROM 3 TO 6 PERCENT TO 34 PERCENT OVER THE LAST FEW OKHATRIN COMMENTS ON RESEARCH OF MICROLEPTON RADIATION DECADES. IN PROGRESS AT THE INSTITUTE OF MINERALOLOGY, GEOCHEMISTRY WHICH AND CRYSTAL CHEMISTRY OF RARE ELEMENTS; HE EXPLAINS THAT ULTRALIGHT PARTICLES CALLED MICROLEPTONS ARE EMITTED BY SYSTEMS OF VARIOUS KINDS, INCLUDING LIVING ONES. MICROELEPTONS FORM HUMAN BIOLOGICAL FIELDS, AND THEY CAN PASS THROUGH BARRIERS, INCLUDING BRICK WALLS, THIS HAS BEEN DEMONSTRATED BY EXPERIMENTS IN ACCORDING TO OKHATRIN. WHICH FILM INSIDE A PHOTOLEPTON CAMERA WAS EXPOSED BY MICROLEPTON RADIATION PASSING THROUGH A SCREEN PLACED BETWEEN THE CAMERA AND THE THE RADIATION. (A PHOTOLEPTON CAMERA IS AN ORDINARY SOURCE OF

CAMERA WITH AN ATTACHMENT WHICH CONVERTS MICROLEPTON RADIATION INTO OPTICAL RADIATION). THE INTERVIEWER WAS SHOWN PICTURES WHICH OKHATRIN SAYS WERE PRODUCED BY MICROLEPTON RADIATION FROM THE SUN AND A HEATING AND POWER PLANT. IT IS CLAIMED THAT INTENSE MICROLEPTON RADIATION CAN AFFECT THE HUMAN NERVOUS SYSTEM, IMPAIRING LOGIC, SPATIAL ORIENTATION AND THE FUNCTIONING OF ORGANS. FATAL CONSEQUENCES ARE POSSIBLE.

MEDICAL DIAGNOSIS AND WEATHER MODIFICATION ARE MENTIONED AS POSSIBLE FIELDS FOR THE PRACTICAL EMPLOYMENT OF MICROLEPTON TECHNOLOGY. OKHATRIN RELATES THAT HE AND COLLEAGUES HAVE CONTROLLED RAINHALL WITH THE AID OF SUCH EQUIPMENT. IN SARATOV, MICROLEPTON GENERATORS BEEN USED HAVE TO REDUCE THE DUST CONTENT OF THE ATMOSPHERE AND PURIFY NEARBY BODIES OF WATER. ASKED ABOUT THE POSSIBILITY OF BUILDING MICROLEPTON DEVICES FOR DESTRUCTIVE PURPOSES OR ENSLAVING OTHERS, OKATRIN ACKNOWLEDGES THAT SUCH A POSSIBILITY EXISTS. HE BELIEVES THAT THIS PROBLEM IS BEING STUDIED IN WESTERN COUNTRIES. OKHATRIN THINKS THAT EXPERIMENTS IN THIS FIEL. SHOULD BE FORBIDGEN. ISKAKOV QUOTES THE FOLLOWING PASSAGE FROM AN ANTHOLOGY ENTITLED PROBLEMS OF STATISTICS AND ECONOMETRIC MODELING (PROBLEMY STATISTIK) EKONOMETRICHESKOGO MODELIROVANIYA), WHICH WAS PUBLISHED IN MOSCOW IN 1987: A LEPTON PACKET (LEPTON CLOUD) CAN BE A MAJERIAL MEDIUM. DATA FROM A. F. OKENTRIM, IN COMBINATION WITH SOLUTION LEPTON GAS MAKES II POSSIBLE IN PRINCIPLE TO WEIGH EOUATION FOR HUMAN THOUGHT TO WITHIN 10EXP-35 TO 10EXP-32 GRAMS. TWO PHOTOGRAPHS OBTAINED IN OKHATRIN'S LABORATORY BY MEANS OF MICROLEPTON RADIATION ARE GIVEN.
